

PROFESSIONAL GARDEN LIGHTING SYSTEM

ASTgarden

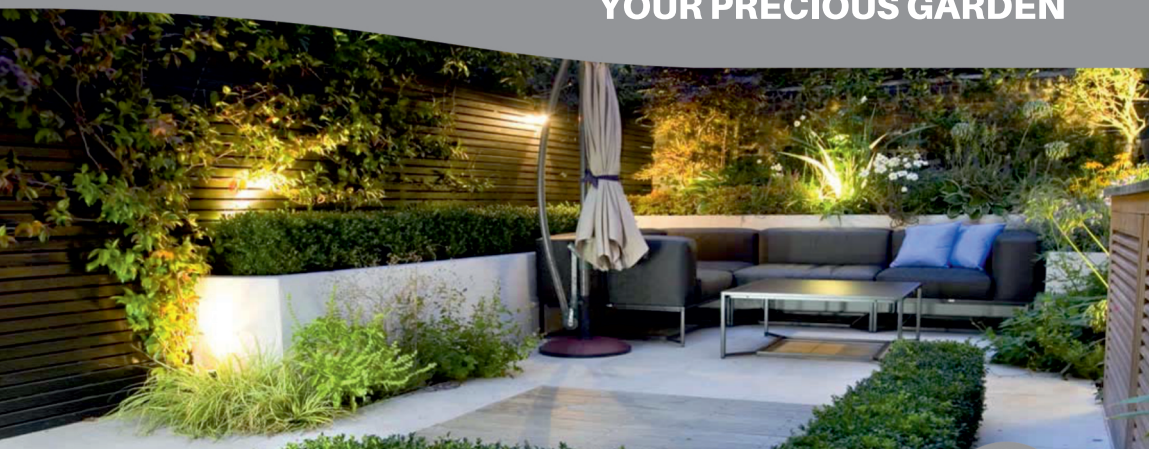

ASTgarden is an affordable lighting driver for your garden that houses the most advanced lighting management system. Using the free **ASTmobile FOR GARDEN** application, you set the appropriate switching on/off lighting schedule in a transparent and quick way. You will make exceptions in lighting control and switch on/off lighting of the selected section.

The ASTgarden controller has two control channels. Thanks to, control in the garden can be divided into sections, e.g. creating scenes, lighting, highlight the driveway, control the water pump and pond lighting. The ASTgarden controller is equipped with one input that can be used to connect a photocell or as an input that triggers switching on of a specific circuit.
